This is to certify that \_\_\_\_\_ (student's name) is a full-time student in her/his \_\_\_\_\_ year/semester of studies at Technische Universität Dortmund in Germany working toward a physics degree. Her/his program of study requires that she/he completes a research project at another university under the supervision of a faculty member or in a research laboratory under the supervision of a senior member of the technical staff.

Professor Andreas Jung at Purdue University, West Lafayette, Indiana (USA), has agreed to supervise \_\_\_\_\_ (student's name) as a non-degree student engaging in a research project related to \_\_\_\_\_ (topic).

We expect her/him to work on this project from 15 May 2018 for a period of three (3) months and to write a report on his study.

Professor \_\_\_\_\_ at Technische Universität Dortmund will be responsible for assessing the report and will remain in contact with Purdue Professor Andreas Jung to obtain their views on the student's performance.

During this research project period, it is agreed that this student will be employed on an hourly basis at Purdue University up to twenty (20) hours per week during the regular academic year and up to forty (40) hours per week during the summer month. She/he will not be required to register for classes or pay tuition at Purdue University as she/he will be registered at this institution during her/his stay at Purdue University.

Assuming satisfactory completion of the research project, this student will receive credit at Technische Universität Dortmund toward a degree at this institution.

Signed,

Prof. Dr. Frithjof Anders  
The Dean of the Department of Physics  
of Technische Universität Dortmund

Prof. Dr. \_\_\_\_\_  
(print name of) Supervising Professor  
at Technische Universität Dortmund
